FEDERAL BUREAU OF INVESTIGATION (FBI)..... FA 5-0811

If no answer dial Operator and ask for ..... **Portland Capitol 2-9211**

NOTICE—It is a misdemeanor under Oregon Law:

(1) To refuse to relinquish a party line or public pay telephone when informed that it is needed for an emergency call.

(2) To obtain the use of a party line or public pay telephone by falsely stating that it is needed for an emergency call.

An "emergency call" is a call to a fire department or police department, or for emergency medical aid or ambulance service when property or human life are in jeopardy and the prompt summoning of aid is essential.

BUSINESS OFFICE LOCATION

The Telephone Company Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturdays. For your convenience business matters except payment of bills can be handled by telephone.

Our address and telephone number in Astoria is 1020 Commercial St., FA 5-5051.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save you time if you have your bill with you. When paying by mail please enclose the bill stub to assure proper credit. If you have any questions about your bill, our Business Office will be glad to help you.

OTHER PAYMENT OFFICE

In addition to the Business Office at 1020 Commercial St., Astoria, bills may be paid in person at the following location:

Clatsop Realty
215 So. Main St.....Warrenton

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. The Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

DIRECTORIES OF OTHER CITIES

Telephone Directories of other cities are available at our Business Office for your convenience. If you need any copies for your own use, our Business Office will be glad to get them for you.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

SHIP TELEPHONE SERVICE

This service provides two-way telephone communication between a telephone on land and a ship equipped with a radio telephone or between ships when within range of any one of six Telephone Company Pacific Coast Shore Stations. To make a call from a telephone on land dial "Operator" and ask for "Marine Operator" and tell her you wish to place a call to a ship, giving her the name of the ship and its approximate location.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegram charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

TONES AND SIGNALS

RINGING SIGNAL

A burring sound at slow, regular intervals indicates that the telephone you are calling is being rung. Allow a reasonable time—at least a minute (10 rings)—for the person you are calling to answer.

BUSY SIGNAL

A persistent series of buzzing sounds means that the called telephone is busy or it is a party line that somebody else is using. When you hear this, you should replace the receiver. Wait about three minutes and try again.

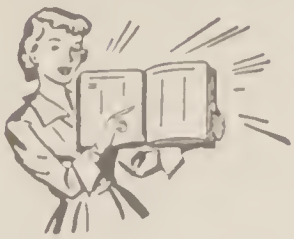
NO-SUCH-NUMBER SIGNAL

A siren-like sound rising and falling in pitch indicates that a dialing or other error has occurred and no such number exists. When you hear it, replace your receiver, refer to your directory to be sure of the correct number and dial your call again.

VOICE RECORDING SIGNAL

If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a voice-recording signal. This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO GET THE BEST USE OUT OF YOUR TELEPHONE



1. Have the right number. Look up any number you are not sure of. Write it down. Refer to it while dialing.

2. Lift the receiver and listen for the dial tone—a steady humming sound. As soon as you hear the dial tone start dialing. (If you do not hear the dial tone within a reasonable time, hang up, wait a few seconds, and try again.)

3. Dial the two letters and the numeral in the prefix—then the four other figures in the number. For example, to call FAirfax 5-1730, dial: FA51730.

In each case, turn the dial until your finger FIRMLY touches the finger stop.

Take your finger out and let the dial return freely until it stops.

OTHER HELPFUL HINTS

Dialing another party on your line.

Astoria Only

Two and Four Party Lines—

Dial the listed number and as soon as you hear the busy signal hang up. Your telephone and the called telephone will ring at regular intervals until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

Eight Party Lines—

Dial the listed number and when you hear a high pitched tone, dial your party code number as shown on your telephone number plate. As soon as you hear the busy signal hang up. Your telephone and the called telephone will ring at regular intervals until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

Warrenton

To call another party on your line, dial "119", then the last figure of your own number and then the last figure of the desired party's number. Immediately after the dialing is completed hang up the receiver. Ringing will start and continue until the called party answers. When the ringing stops, remove your receiver and start conversation. In case the called party does not answer, remove your receiver momentarily to stop the ringing.

If your finger slips or a mistake is made, hang up for a moment then after listening for dial tone again, redial the complete number.

If you hear someone else dialing before you dial, tell him you have interfered with his call and make your call later.

Do not turn the dial while talking, it may break the connection.

Be careful not to mistake the letter "I" for the numeral "1" (one.)

If you need assistance in completing a call, dial the operator (numeral zero). She will be glad to help you.

When your telephone rings answer promptly. A prompt answer may prevent the loss of an incoming call.

Please make sure it's the right number

It's surprising how one's memory will play pranks and cause one to say, for example, "1621" for "1261."

Please consult the directory first.

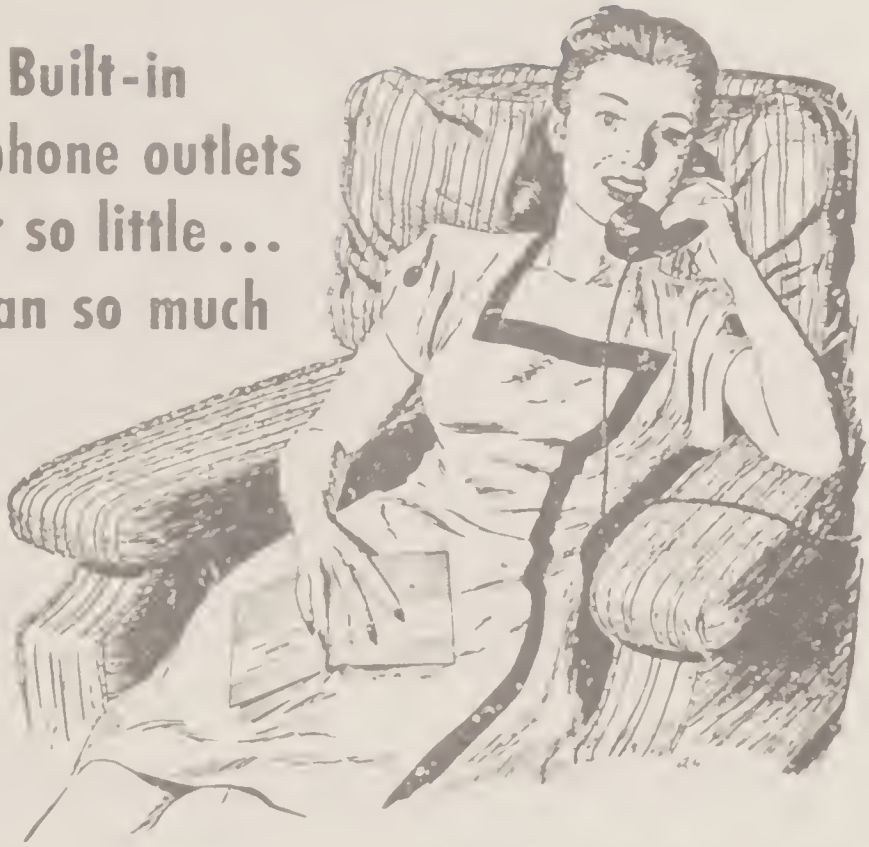
This is particularly desirable when there has lately been a new issue of the telephone directory.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY

How to help yourself to good telephone service

- Give the person you're calling plenty of time to answer—at least a full minute...and you'll reach him more often.
- Encourage the youngsters to be considerate telephone users...and you won't miss important calls.
- Wait a few minutes between calls if you're on a party-line...good party-line neighbors get better party-line service.
- Unless you're sure of your number, look it up before you call. It's also wise to keep personal lists up-to-date.

Built-in telephone outlets cost so little... mean so much



At the time a house is built the cost of installing conduit for a number of telephone outlets is small ...and it adds real value to the home. It's a wise economy, even if only one telephone is needed immediately

Additional telephones can be added when you want them...where you want them...without running exposed wires along baseboards or moulding or drilling through floors. When you build, plan for a number of outlets. Call your local Telephone Business Office and ask for free Architects and Builders Service.

The Pacific Telephone and Telegraph Company

BELL SYSTEM

Nothing's finer than a Good Neighbor

...and that goes for a telephone party line

Just as a good neighbor on your street is always thoughtful and helpful . . .

So does a good telephone party line neighbor cooperate with you in telephone usage.

Here are a few of the ways to make sure you are a good neighbor on your party line:

- Make sure the line is not in use before you try to call.
- If you find the line busy when you have to make an urgent call, politely explain the circumstances to the person using the line. Extend the same courtesy to others you expect yourself under like conditions.
- Talk no longer than necessary; allow time between calls so that others may have a chance to use the line.
- Answer promptly when your telephone rings; always replace the receiver when you have finished using the line.

Careful observance of these points assures more satisfaction and better service on your telephone party line.

The Pacific Telephone and Telegraph Company

THE PACIFIC TELEPHONE & TELEGRAPH CO. BELL SYSTEM AMERICAN TELEPHONE & TELEGRAPH CO.

Thanks for using your Directory instead of calling Information

Every day thousands of people call "Information" for telephone numbers that are listed in the directory.

Obviously, *you* did not or you wouldn't be reading this page, and we want to thank you for your help.

Not that we mind giving assistance. When telephone numbers are not listed, we want you to call "Information." But in most cases, the number you want *is* in the directory and easy to find.

Thanks for your cooperation.

The Pacific Telephone and Telegraph Company

When you dial

numbers which include a central office name

Please remember...

Always dial the first two letters and the numeral in the central office name...followed by the remaining figures in the number.

extension telephones now available for your home

For just pennies a day you can enjoy the convenience of an extra telephone.

Extensions are handy so many places. In the breakfast nook or basement . . . in bedrooms, the den, or garage . . . in any part of your home where you spend a lot of time, an extension is a time-saver and step-saver. We can offer this service again because extensions require only additional telephone sets, not outside cables and central office facilities.

To order your extension, just call your Pacific Telephone Business Office.

You'll get quicker dial service if you follow these simple steps:

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.
5. If you make a mistake while dialing, hang up for a few seconds and then start your call again.

Play Ball . . .

When you call somebody by telephone, "play ball" with him by giving him time to answer. Please don't hang up too soon.

BROOKFIELD COMPANY

3196 Marine Dr. Astoria

Mr. Carpenter:

For additional satisfaction to home builders, suggest that telephone service engineers will help without charge in planning for concealed wiring and built-in outlets for plugging in portable telephones.

When building or remodeling, call the Business Office and ask for Architects' and Builders' Service.

PLANNING TO BUILD A NEW HOME?

★

Have your architect or contractor place
BUILT-IN TELEPHONE OUTLETS
during construction

● BUILT-IN TELEPHONE OUTLETS add little to building costs . . . *much to value and convenience.* The location of the telephone can be changed, or additional telephones may be added in the future without tearing up flooring, or running wires along baseboards.

Our
ARCHITECTS' and BUILDERS' SERVICE
gladly will furnish up-to-date and practical information without cost.

Just call us and ask for
"ARCHITECTS' and BUILDERS' SERVICE"

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

Solve your buying problems!
Use the "Yellow Pages"
It's your handy . .
"Where To Buy It" Guide

Under the classification describing the product or service you wish, you will find a complete list of nearby dealers . . and in many cases, you will find helpful information to aid you in selecting those best fitted to serve you.

Adequate Yellow Page representation is essential to every business

Here's a simple, economical way to attract more business. List your name and the products you sell or services you render where prospective customers will FIRST see them—in the CLASSIFIED 'YELLOW PAGES'. It's the Number One 'Where to Buy It' shopping guide. For details about advertising or additional listings in these Yellow Pages, call your local Business Office.

When you take down your telephone to dial, a few seconds are sometimes required for the equipment at the central office to get ready to serve you. When it is in position, you hear a notifying hum, a "dial tone," corresponding to an operator's "Number, please?" If you will wait for this dial tone, it will speed your calls!

You'll get quicker service when you dial if you fallaw these simple steps:

1. Listen for the dial tone. This tone is yaur signal that the equipment is ready to take your call.
2. Dial each letter and digit af the number in its right arder.
3. Draw the dial all the way to the finger stop
4. Remove your finger and let the dial return naturally, without forcing or hurrying.

Don't forget to plan for concealed telephone conduit and convenient locations for telephone outlets when you build your new home. These built-in telephone facilities add real value to a home, yet their cost is very small if they are installed during construction.

Prompt answering of a telephone's ring is thoughtful, courteous, and good business.

Play Ball . . .

When you call somebody by telephone, "play ball" with him by giving him time to answer. Please don't hang up too soon.

FOUR THOUGHTFUL ITEMS OF TELEPHONE PROCEDURE—

1. Please answer promptly.
2. Please be on the line when the party you want answers.
3. Please speak distinctly and without hurrying, with the lips close to the mouthpiece.
4. Please replace the receiver gently when through talking

Want faster Long Distance service?

Call by Number

We save YOUR time if you know the Telephone Number.

You can shop at home . . . easily and comfortably . . . by thumbing through the Yellow Pages. Your Classified Directory lists 'most every store in town . . . helps you find everyone who sells and serves.

Here's a tip for better dial telephone service. You'll save time . . . and wrong numbers . . . if you wait for the dial tone before you dial. Listen for the steady hmmmmm . . . it's your "go ahead" signal.

You'll get quicker dial service if you follow these simple steps:

1. Listen for the dial tone. It's your signal that the equipment is ready to take your call.
2. Dial each letter and digit of the number in its right order.
3. Draw the dial all the way to the finger stop.
4. Lift your finger and let the dial return naturally, without forcing.

In these busy days when saving time is so important, more and more telephone users are following the thoughtful way of answering the telephone: "Harry Smith speaking". Such an introduction establishes identity, saves time and makes a good impression.

Mr. ADVERTISER

CALL YOUR TELEPHONE BUSINESS OFFICE

How to make good telephone service even better....

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!"—it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls.

So, next time your telephone rings, won't you try to answer as quickly as you can?

OREGON STATE POLICE ..... **Astoria FA 5-2231**

FEDERAL BUREAU OF INVESTIGATION (FBI) Dial ..... OPERATOR

NOTICE—It is a misdemeanor under Oregon Law:

(1) To refuse to relinquish a party line or public pay telephone when informed that it is needed for an emergency call.

(2) To obtain the use of a party line or public pay telephone by falsely stating that it is needed for an emergency call.

An "emergency call" is a call to a fire department or police department, or for emergency medical aid or ambulance service when property or human life are in jeopardy and the prompt summoning of aid is essential

BUSINESS OFFICE LOCATION

The Telephone Company Business Office is open from 8:30 A.M. to 5:00 P.M. Monday through Friday and is closed Saturdays. For your convenience business matters except payment of bills can be handled by telephone.

Our address and telephone number in Seaside is 302 Ave. A — RE 8-6301.

BILLS AND PAYMENTS

Bills for service are usually issued monthly and are due and payable upon presentation.

When paying in person it will save you time if you have your bill with you. When paying by mail please enclose the bill stub to assure proper credit. If you have any questions about your bill, our Business Office will be glad to help you.

OTHER PAYMENT OFFICE

In addition to the Business Office at 302 Ave. A, Seaside, bills may be paid in person at the following location:

Dennon's.....Cannon Beach

COPIES OF THIS DIRECTORY

Use of an out-of-date directory interferes with good telephone service, as each new issue contains many changes in numbers and listings. For this reason we ask that they be destroyed at the time the succeeding issue is distributed.

DIRECTORY ACCURACY

Every effort is made to make the directory as accurate as possible. The Company is not liable for damages arising from errors or omissions in free listings. Its liability in the case of paid listings shall not exceed the charge for such listings during the life of this directory.

DIRECTORIES OF OTHER CITIES

Telephone Directories of other cities are available at our Business Office for your convenience. If you need any copies for your own use, our Business Office will be glad to get them for you.

IDENTIFICATION OF EMPLOYEES

Employees of the Company whose duties require them to enter premises of customers are supplied with identification cards. If you doubt the right of a person to represent himself as an employee of this Company, please call the Business Office.

RATES

Rates and practices included in this directory are based on those in effect at the time this directory was closed for printing and are subject to such changes as may be made from time to time.

TELEGRAMS BY TELEPHONE

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company following instructions shown under the listings of that company in this directory. The telegram charges will appear on your telephone bill. You may also telephone your telegrams from coin telephones, paying as you would for a telephone call.

TONES AND SIGNALS

RINGING SIGNAL

A burring sound at slow, regular intervals indicates that the telephone you are calling is being rung. Allow a reasonable time—at least a minute (10 rings)—for the person you are calling to answer.

BUSY SIGNAL

A persistent series of buzzing sounds means that the called telephone is busy or it is a party line that somebody else is using. When you hear this, you should replace the receiver. Wait about three minutes and try again.

NO-SUCH-NUMBER SIGNAL

A siren-like sound rising and falling in pitch indicates that a dialing or other error has occurred and no such number exists. When you hear it, replace your receiver, refer to your directory to be sure of the correct number and dial your call again.

VOICE RECORDING SIGNAL

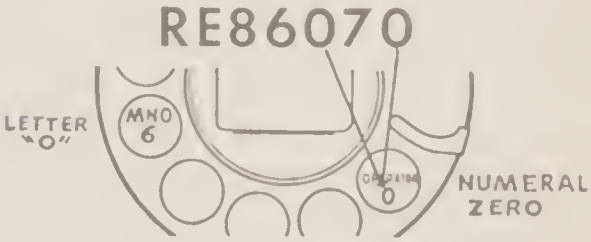
If you are talking to someone on the telephone and you hear a short high "beep" tone every 15 seconds or so, it is a voice-recording signal. This means the person you are talking to is recording your conversation. It is against the law to use a recorder without this signal.

HOW TO GET THE BEST USE OUT OF YOUR TELEPHONE

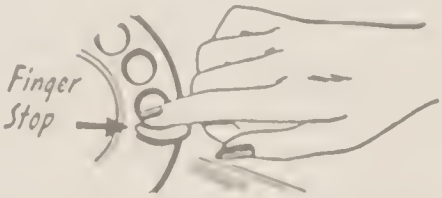
1. Have the right number. Look up any number you are not sure of. Write it down. Refer to it while dialing.

2. Lift the receiver and listen for the dial tone—a steady humming sound. As soon as you hear the dial tone start dialing. (If you do not hear the dial tone within a reasonable time, hang up, wait a few seconds, and try again.)

3. Dial the two letters and the numeral in the prefix—then the four other figures in the number. For example, to call REdfield 8-6070, dial: RE86070.



In each case, turn the dial until your finger FIRMLY touches the finger stop.



Take your finger out and let the dial return freely until it stops.

OTHER HELPFUL HINTS

Dialing another party on your line.

Seaside—Cannon Beach—If you have Two, Four or Eight Party Line service, DIAL "114" to obtain assistance.

Jewell—Westport—If you have Two, Four or Eight Party Line service, DIAL "Operator" to obtain assistance.

If your finger slips or a mistake is made, hang up for a moment then after listening for dial tone again, redial the complete number.

If you hear someone else dialing before you dial, tell him you have interfered with your call and make your call later.

Do not turn the dial while talking, it may break the connection.

Be careful not to mistake the letter "O" for the numeral "0" (zero).

Be careful not to mistake the letter "I" for the numeral "1" (one).

If you need assistance in completing a call, dial the operator (numeral zero). She will be glad to help you.

When your telephone rings answer promptly. A prompt answer may prevent the loss of an incoming call.

How to make your telephone service even better . . .

You won't miss important calls

when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!"—it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing and may hang up, thinking you are not at home. That way you may miss important calls.

So, next time your telephone rings, won't you try to answer as quickly as you can?

Pacific Telephone

extension telephones are so handy yet cost so little

For only a few pennies a day you can enjoy the convenience of an extra telephone in your home.

Extensions go almost anywhere in the home—in the bedroom or basement . . . in the den, kitchen, or garage . . . wherever you spend a lot of time. And the cost is small . . . only pennies a day. We can offer this service again because extensions require only additional telephone sets, not outside cables and central office facilities.

To order your extension, just call your Pacific Telephone Business Office.

Pacific Telephone

New convenience in telephones...

Colored telephones—New beauty to match your decorating plans. Choice of Ivory, Green, Red, Gray, Beige, Brown, Yellow, or Blue. Attractive two tones: Ivory, Green, Gray, or Red, with Black hand-piece, number plate and dial.

Outdoor extension bells. Without off switch if desired. Just the thing for Western living. Gives a clear signal you can hear when you're gardening, lounging on the patio, cooking outdoors—just about any place where you're out of earshot of the telephone.

A portable telephone you can move to any point in the house, workshop or patio. All you do is plug it into a convenient telephone jack. No installation charge for jacks. Regular extension rate for the telephone.

AND THEY'RE ALL SURPRISINGLY LOW IN PRICE. TO ORDER, JUST CALL YOUR PACIFIC TELEPHONE BUSINESS OFFICE.

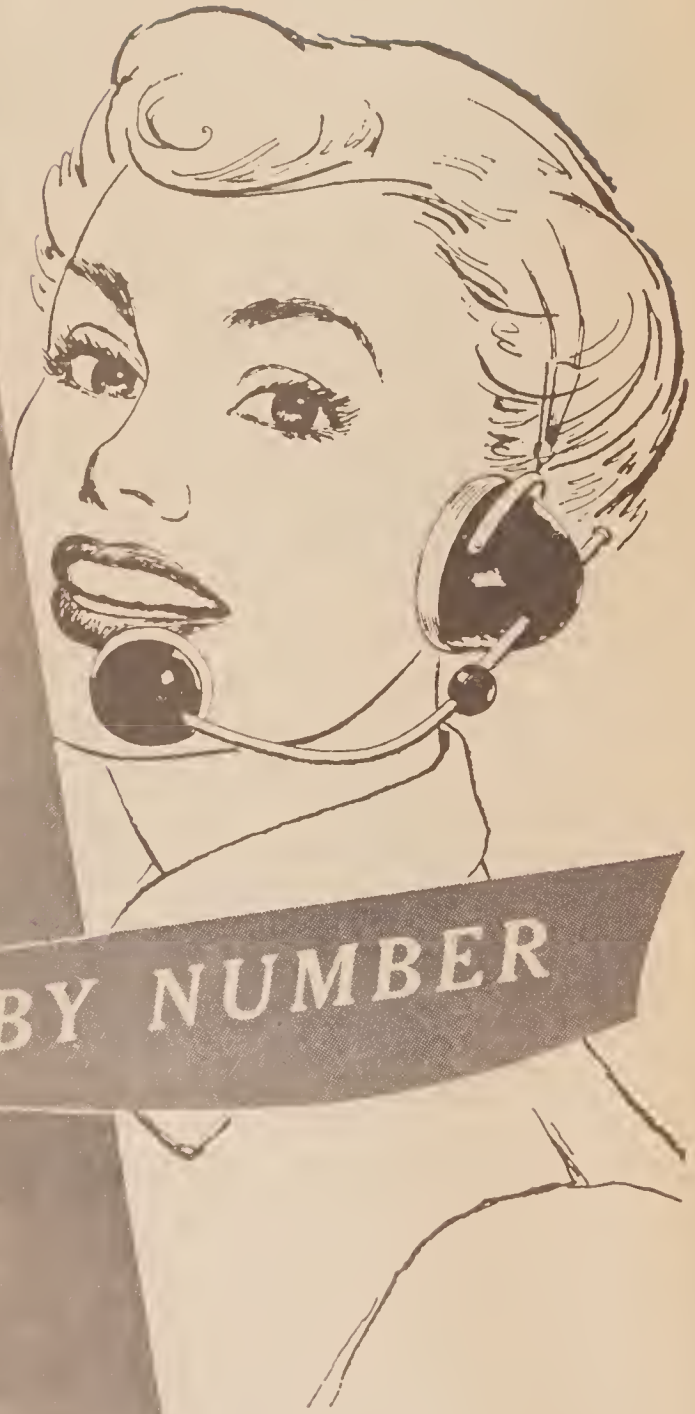
long distance
calls through
twice as fast
when you

CALL BY NUMBER



FREE telephone number booklet

Handy booklets like these...

for your personal local and out-of-town numbers—are yours for the asking. Just write or stop in at your Pacific Telephone business office. By keeping a list of numbers you call frequently, you'll save plenty of time. Remember, your long distance calls go through more as fast when you call by number.

How to get the most out of your telephone service

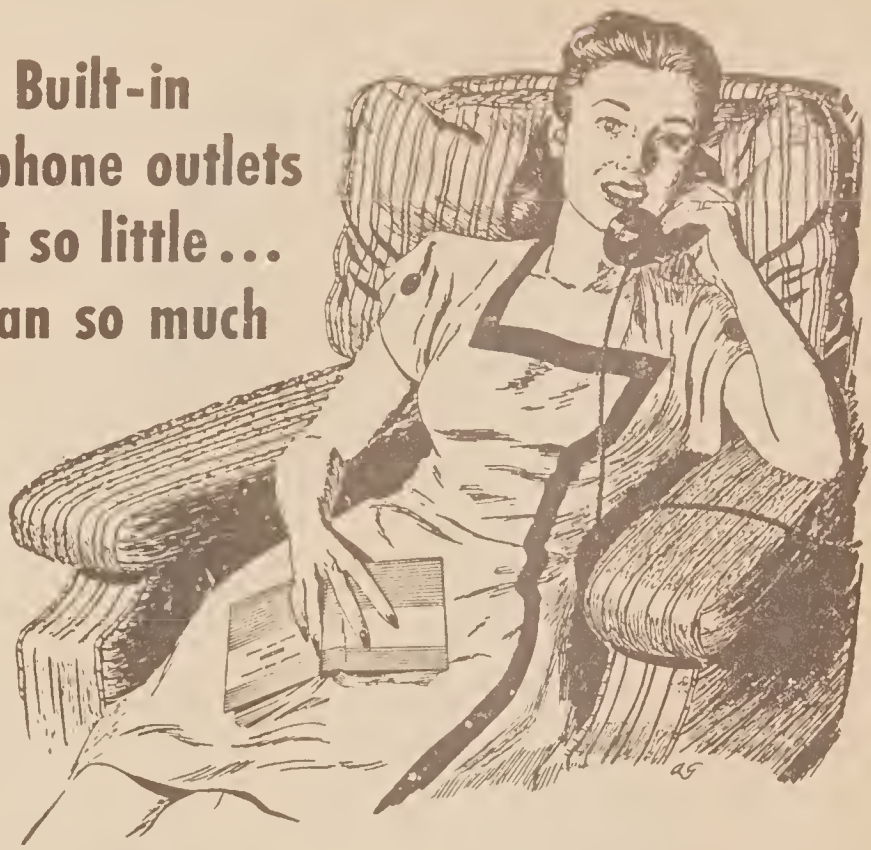
It's wise (and thoughtful) to follow these simple golden rules for good telephone service:

- Encourage the youngsters to be considerate telephone users... and you won't miss important calls.
- Give the person you're calling plenty of time to answer... at least a full minute... and you'll reach him more often.
- Be sure that the line is free before making a call when you're on a party-line.
- Look up any numbers you're not sure of and... keep personal lists up-to-date.

Get the right number first

Get it from the directory. If there's any doubt about it, look up the number before you call. It's mighty easy to get numbers twisted if you depend on memory alone. And since looking up numbers in the directory is so easy, it's a good way to save time in making your calls.

Built-in telephone outlets cost so little... mean so much



At the time a house is built, the cost of installing conduit for a number of telephone outlets is small...and it adds real value to the home. It's a wise economy, even if only one telephone is needed immediately.

Additional telephones can be added when you want them...where you want them...without running exposed wires along baseboards or moulding or drilling through floors. When you build, plan for a number of outlets. Call your local Telephone Business Office and ask for free Architects and Builders Service.

THE PACIFIC TELEPHONE & TELEGRAPH CO. BELL SYSTEM AMERICAN TELEPHONE & TELEGRAPH CO.

LONG DISTANCE SERVICE

To place Long Distance calls give the operator the city or town, the telephone number you are calling, if you have it, or the name and address under which it is listed. The operator will ask for your number when she needs it to complete the call.

STATION-TO-STATION CALLS—When you will talk with anyone who answers the called telephone.

PERSON-TO PERSON CALLS—When you want to talk to a particular person or a particular extension telephone connected through a private switchboard, give the operator the name, extension or department after you have given the distant city and telephone number.

COLLECT CALLS—Upon request, the charges on calls to most points within the Continental United States, Alaska, Canada and to certain overseas points may be collected at the called telephone. Collect calls take the regular Station-to Station or Person-to Person rates except that higher Station collect call rates apply where the Station rates are 20 cents or less on calls within Oregon or 25 cents or less on calls outside of Oregon.
